FDIC- Last Animal in Cage

1. Enter report into Cayuse
2. Place entire Cage Card (w/ deactivation strip attached) into Activation/Deactivation bin

3. Place labeled carcass bag in designated carcass storage area

Creating a New Cage:

1. Place new cage card on cage (make sure to activate new card)
2. Place **“New Cage Created by OLAC”** post-it on cage. Fill out entirely.

Date: 10/12/20 Initials: AL

New Cage Created by OLAC

Animals Moved from Cage#: 123456

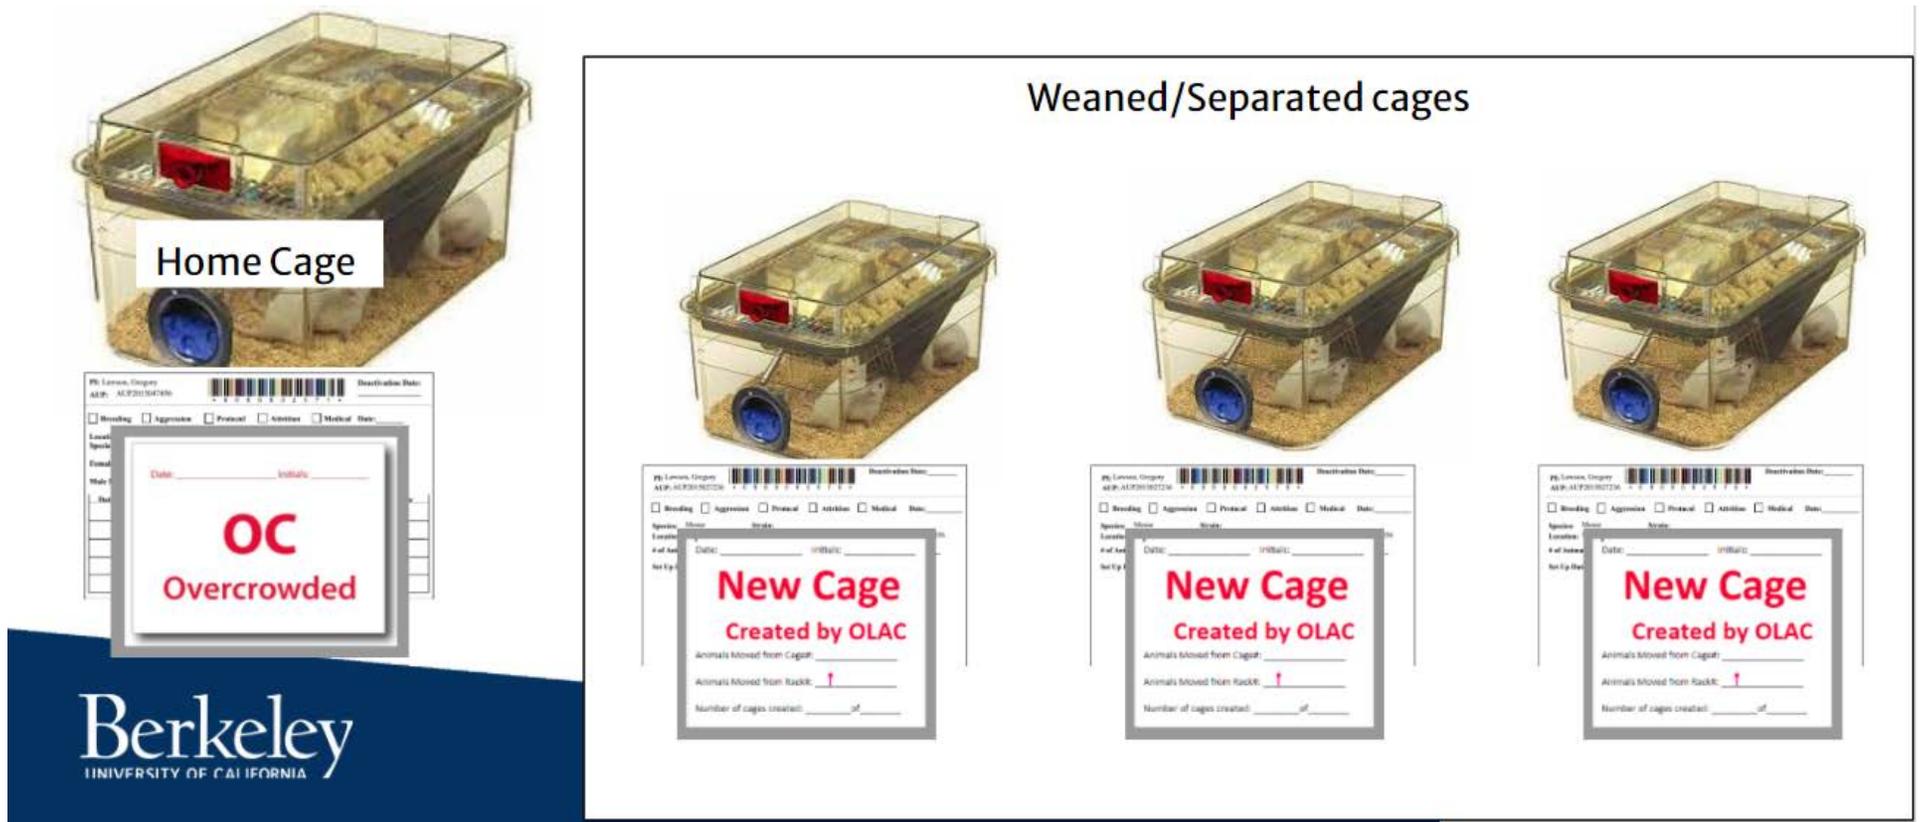

Animals Moved from Rack#: 2B

Number of cages created: 1 of 3

Barcode number
from original
“home” cage

3. Enter into Cayuse

Example of an Overcrowded Cage Weaning/Separation:

The diagram illustrates the process of weaning and separation from an overcrowded cage. On the left, a single large cage labeled "Home Cage" is shown. Below it is a computer screen displaying a record for an overcrowded cage, with a red "OC Overcrowded" label overlaid. On the right, three smaller cages labeled "Weaned/Separated cages" are shown. Below each of these is a computer screen displaying a record for a new cage created by OLAC, with a red "New Cage Created by OLAC" label overlaid. The OLAC records include fields for "Animals Moved from Cage(s)", "Animals Moved from Rack(s)", and "Number of cages created".

Reminder: Type # of cages made in the "notes" section of Cayuse
